

# **Doing Business with National Nuclear Security Administration**

**Gary G. Lyttek/Gregory F. Gonzales, NNSA Business Source Managers**

# **Doing Business with NNSA**

## **Our Mission**

- **Management and security of the nation's nuclear weapons, nuclear nonproliferation, and naval reactor programs. NNSA responds to nuclear and radiological emergencies in the United States and abroad. Additionally, NNSA federal agents provide safe and secure transportation of nuclear weapons and components and special nuclear materials along with other missions supporting the national security.**

## **Our Small Business Vision**

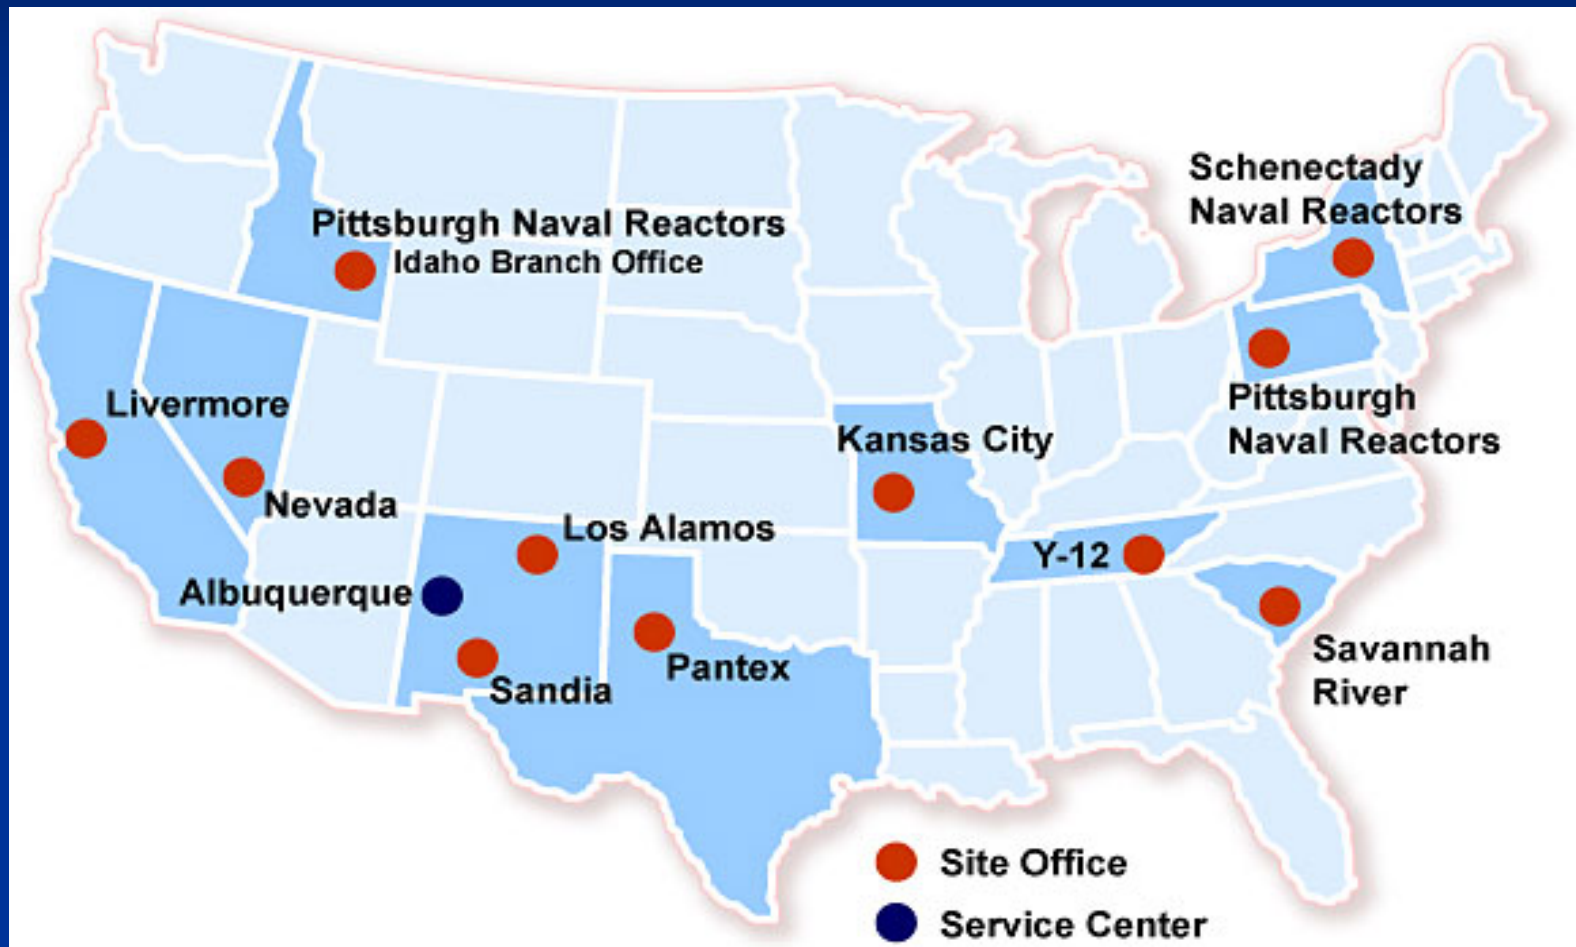

**Provide NNSA's programs with only the highest quality, technically superior, and competitively-priced small business suppliers.**

# **NNSA Operations**

---

- **Semi-Autonomous Organization**
- **Unique Procurement Authority**
- **Management & Operating Contractors (M&O's) fulfill mission work**
- **Majority of small business opportunities are with our M&O contractors**
- **FY 2013 Est. Procurement Base: \$10.2 billion**
- **FY 2013 Est. Federal Small Business Obs: \$~\$168 million**

# NNSA's Sites

# FY 2014 Focus Areas

---

- **Reduce Nuclear Dangers** by securing all vulnerable nuclear materials worldwide; strengthening the nonproliferation regime; and maintaining emergency response, counterterrorism and counterproliferation capabilities;
- **Manage the Nuclear Weapons Stockpile** by completing life extension programs and through robust surveillance and assessment activities, both enabled by investments in the science, technology, and engineering base;
- **Advance Naval Nuclear Propulsion** by supporting the existing nuclear-powered fleet; developing the next generation reactor plant technology for the replacement to the Ohio-class submarine; and replacing and refueling the land-based prototype;
- **Modernize the NNSA Infrastructure** to ensure that the core capabilities are in place to meet mission requirements for the long-term and to create a 21st century Nuclear Security Enterprise;
- **Strengthen the Science, Technology and Engineering Base** that underpin current mission needs and to deal with broader national security challenges for the country; and
- **Drive an Integrated and Effective Enterprise** through the application of improved governance and business models and the recruitment and retention of highly talented Federal nuclear security professionals.
